

Towards a

First Nations Languages Coalition

Bringing together language organisations

Alice Springs
2 June 2016

Join us

to shape a proposal for a national languages coalition. We welcome your participation at the meeting in Alice Springs on 2 June 2016. We will share the outcomes of the meeting at wanala.org/coalition.

How can we care for our languages and sustain our activities with scarce funding and resources?

How can we best learn from each other and share knowledge across Australia?

Is it time for all centres involved in maintenance and revival of Indigenous languages to come together in a coalition?

What **form** of coalition would most benefit the work of regional and local language organisations? How would a coalition advance our **national partnerships**, including with the Commonwealth Government?

The meeting outcomes will be shared at wanala.org/coalition
